Forecast for Saturday 16 Apr 2022

Weather: A rather cloudy and misty start as low cloud increasingly develops through the early hours, with perhaps some patchy drizzle. The cloud lifting through the morning and brightening up by lunchtime with sunny intervals. Feeling warm in many areas, especially in the afternoon sunshine. A mixture of clear spells and cloud into the evening.

Chance of cloud-free hill tops above 600m: 50% at first becoming 95% by lunchtime.

Low cloud and visibility: Areas of cloud with bases around 200-500m will bring hill fog to some hills in the morning. Improving as bases lift well above the summits by lunchtime with good visibility of surrounding hills from then on.

Meteorologist's View

Don't underestimate the strength of April sunshine, as UV levels are now moderate. When outside in any prolonged sunny intervals, make sure to protect your skin.

Forecast for Sunday 17 Apr 2022

Weather: Apart from the odd mist or fog patch in valleys, a fine and dry start to Sunday with occasional clear spells. Staying bright through the morning and most of the afternoon with some hazy sunshine. Cloud thickening into the evening as rain arrives.

Maximum wind: 20mph southerly winds on the summits with occasional gusts of 30mph.

Chance of cloud-free hill tops above 600m: 90% for most the day, dropping to 30% in the evening.

Low cloud and visibility: Very good visibility from the hills for the morning and afternoon, with cloud above the summits. Cloud lowering into the evening to bases of 300-500m, with poor visibility in any accompanying rain.

Temperature: **Valleys:** Plus 8 Celsius rising to 18 Celsius.
At 600m: Plus 7 Celsius rising to 9 Celsius.
Freezing level: Well above the summits.
